SUPERPUMPCRETE™

Concrete Going the Extra Miles for You

CHOOSING SUPERPUMPCRETE™

CONCRETE
THAT GOES
THE EXTRA MILE
FOR YOU

DIVE
DEEPER

Anderson Concrete understands the need for the ever changing project demands. Therefore, not only do we tailor our concrete product to suit your project specifications, we are dedicated to go that extra mile for you, providing you with a working partner. Here at Anderson, we are introducing yet another exciting Concrete Product- SuperpumpCrete™.

SuperpumpCrete™ - a product with a unique formula that can withstand miles-long horizontal pumping distance; the product's cement mix, designed for high workability not only achieves a generous retention time but more importantly, gives it a long flow and maintains a reasonable setting time to suit your project working cycle.

TUNNEL CONSTRUCTION

SUPERPUMP CRETE™

engineered with unique formula
and featured with super workability
retention - distant pumping is no
longer a problem.

Saving more time and manpower,
SuperpumpCrete™ runs further beyond
your imagination, delivering itself to places
previously inaccessible by workers and
concrete trucks. Combining superior mix
design and quality comfort, SuperpumpCrete™
is no longer just a concrete product; **it is your
solution, your working partner.**

* Long distance pumping is subject to pumping facilities and actual site condition.
Please consult us to tailor made the mix design to suit with your particular requirements.

8 GOOD REASONS CHOOSING

SUPERPUMPCRETE™ FOR YOUR PROJECTS

Excellent Long Pumpability

SuperpumpCrete™ is capable of horizontal pumping distance of up to 2.4 km prior to 80m-120m vertical pumping *

* Please consult us to tailor made the mix design to suit with your particular requirements

Less Machinery

As SuperpumpCrete™ travels longer, it requires less interim pumping machinery

Extended High Workability Retention

Adjustable retention time (from 2-5 hours), ideal for long distance pumping

Enhance Concrete Durability

The durability mix design of SuperpumpCrete™ can challenge the severe exposure environment.

Low Heat of Hydration

High percentage of secondary cementitious materials is incorporated in the mix design, effectively control the peak temperature of concrete

Reduce Manpower

SuperpumpCrete™ offers innovative solution to save the cost of manpower and machinery than traditional methods of placing concrete

Reaching Remote and Confined Location

With enhanced pumpability, SuperpumpCrete™ can be poured and reached the unreachable land

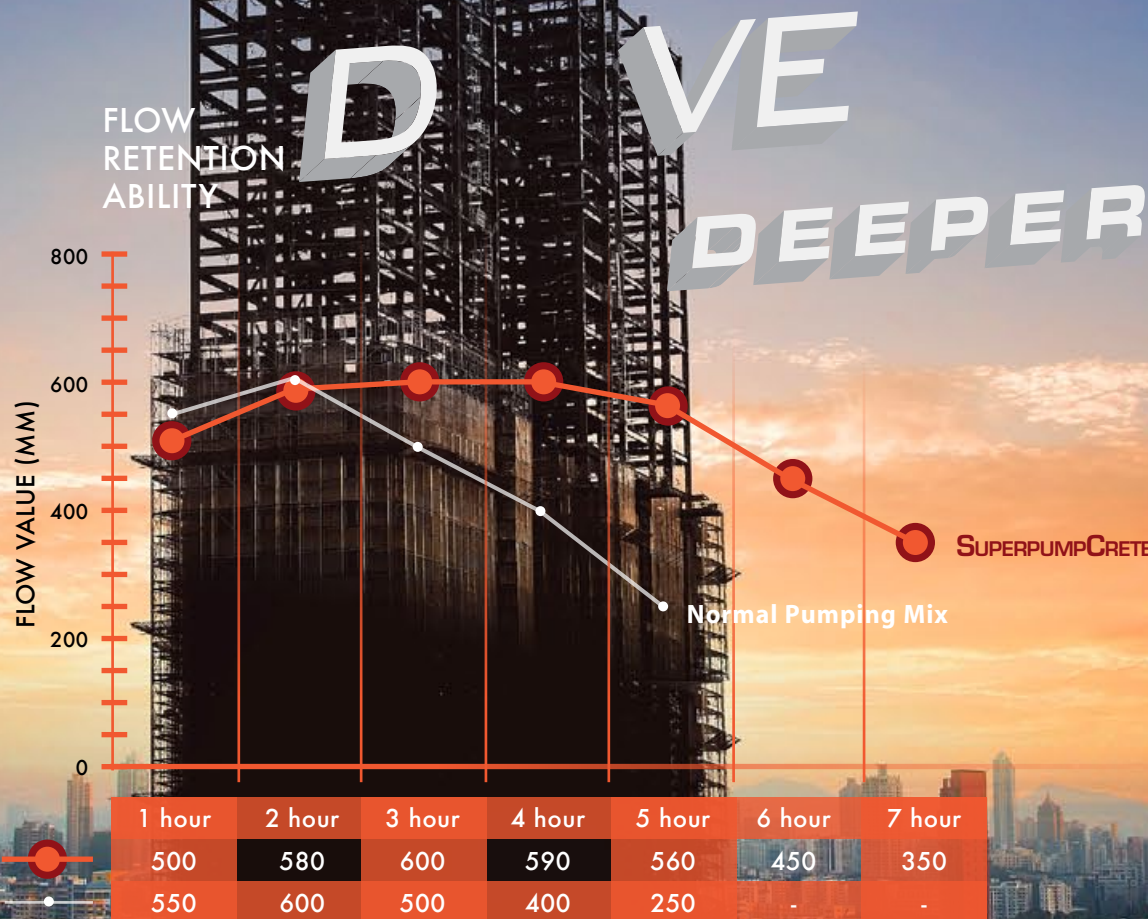

Early Strength Development

Tailor-made mix design make early strength of concrete achievable that allow early stripping or de-modeling of formwork to shorten the casting program

SUPERPUMP CRETE™

Superior

LONG PUMPING CONCRETE PRODUCT

Meeting the standards is just not good enough;
We want to Go that Extra Mile for You

SuperpumpCrete™, engineered with unique formula and featured with super workability retention - distant pumping is no longer a problem.

Anderson Concrete

ENVIABLE REPUTATION; FULL CUSTOMER SATISFACTION

Anderson Concrete is the largest producer of ready-mixed concrete in Hong Kong. With our long established company history, strong partnership with our shareholders & suppliers and close working relationship with our customers, we served the largest and most complex construction projects and crafted numerous project legacies in Hong Kong.

We own a network of strategically located concrete plants and operate the largest fleet of eight cubic meter mixer trucks which offer you the strongest production capacity and competitive edges in logistics and concreting time control that assure you smooth concrete supply to meet your concrete needs.

Being the pioneer of ready-mixed concrete in Hong Kong, we continue striving for new ideas, materials and

technology to cater for the ever changing construction market and challenging projects. In addition to the standard concrete products, we offer a wide range of premium concrete products to meet the specific requirements of our customers.

For more than 40 years, we have been working with the local construction industry to build Hong Kong. SuperpumpCrete™ is another specialty product proudly presented by Anderson Concrete to meet the increasingly stringent construction requirements. With each load of SuperpumpCrete™, we deliver good quality and top service to ensure your satisfaction. We value your business; therefore we make sure that you get value from your business with us.

We offer comprehensive range of specially formulated products. To meet your specific needs, simply call our experts to discuss and evaluate your project need and we will offer our solutions.
